I build user-focused and scalable web interfaces with modern technologies like **React.js**, **Vue.js**, **TypeScript**, **HTML**, **CSS**, and **JavaScript**. I'm experienced in responsive design, dashboards, and mobile-friendly solutions. Clean code and strong UX are my priorities, and I stay up-to-date with frontend trends.

Work Experience

UI Developer Intern

Jotform, Istanbul

Aug 2024 - Sept 2024

During my time at Jotform as part of the Jr. Supernova team, I contributed to the development of the Analytics feature for the App Builder product. I focused on building responsive and cross-browser compatible UI components using technologies such as HTML, CSS, SCSS/SASS, JavaScript, React, Tailwind CSS, Gulp, and Git. It was a great opportunity to apply my front-end skills to improve the user experience with interactive and scalable UI design.

Frontend Developer Intern

Pamukkale Teknokent Yönetici A.Ş, Denizli

Jun 2022 - Sept 2022

Developed user-friendly interfaces using HTML, CSS, JavaScript, React.js, and Bootstrap. Improved code maintainability by creating reusable components. Ensured seamless user experience across different devices by focusing on responsive design and cross-browser compatibility. Gained hands-on experience in building modern, design- and user experience-oriented web interfaces.

To whom it may concern,

I am writing this letter to recommend Doruk as a full stack or front-end developer. I have known Doruk as a fellow computer engineering student, and I have been impressed by his projects and progress.

Doruk is a skilled and passionate full stack developer candidate who can work with various technologies and software languages. He has a keen eye for front-end design and user experience, as well as a solid understanding of back-end development and data management.

Doruk is also a well communicator who is always eager to learn new things and share his knowledge. He is respectful, and collaborative, and he can work well with different people and environments.

I believe that Doruk would be a valuable asset to any company and a perfect fit for the full stack developer role. He has the potential and the ambition to excel in this field and contribute to your success. Therefore, I recommend him for available positions.

Sincerely,

Ozgur SARI
